

ST\_free::StructInformation  
::checkCorrectness

ST\_free::StructInformation  
::print

ST\_free::StructInformation  
::judgeResponsibility

```
graph LR; A[ST_free::StructInformation::checkCorrectness] --> C[ST_free::StructInformation::judgeResponsibility]; B[ST_free::StructInformation::print] --> C;
```

The diagram illustrates a directed graph with three nodes. On the left, there are two white rectangular nodes with black borders. The top node contains the text 'ST\_free::StructInformation::checkCorrectness' and the bottom node contains 'ST\_free::StructInformation::print'. On the right, there is a single gray rectangular node with a black border containing the text 'ST\_free::StructInformation::judgeResponsibility'. Two blue arrows point from the right side of the left nodes to the left side of the gray node, indicating a directed relationship from the left nodes to the right node.
