

ST_free::RelationshipInformation::add

ST_free::RelationshipInformation::get

ST_free::RelationshipInformation
::exists

```
graph LR; A[ST_free::RelationshipInformation::add] --> C[ST_free::RelationshipInformation::exists]; B[ST_free::RelationshipInformation::get] --> C;
```

The diagram illustrates a relationship between two methods and a class method. On the left, two white rectangular boxes with black borders contain the method names 'ST_free::RelationshipInformation::add' and 'ST_free::RelationshipInformation::get'. On the right, a gray rectangular box with a black border contains the text 'ST_free::RelationshipInformation' on the top line and '::exists' on the bottom line. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both methods are associated with or point to the 'exists' method of the 'ST_free::RelationshipInformation' class.
